**EFFECTIVE  
SCHOOLS  
FRAMEWORK**

---

This is a framework by TEA to help every student in KISD become a critical thinker, leading them on to successes with career and life.

JOIN US IN  
FRAMING IDEAS

Please come and participate in the Effective Schools Framework at the SBDM meeting on Wednesday, October 14, 2020. The meeting will be held in the Bellaire Cafeteria at 4pm.

Let us frame the ideas and challenges to make the picture of our students future a complete piece of artwork.

Bellaire Elementary School  
108 West Jasper Road  
Killeen, Texas 76542

# BELLAIRE

## Mission Statement

Teach so that students learn to their maximum potential by providing rigorous and diverse learning experiences, partnering with parents, and strengthening the community relations.

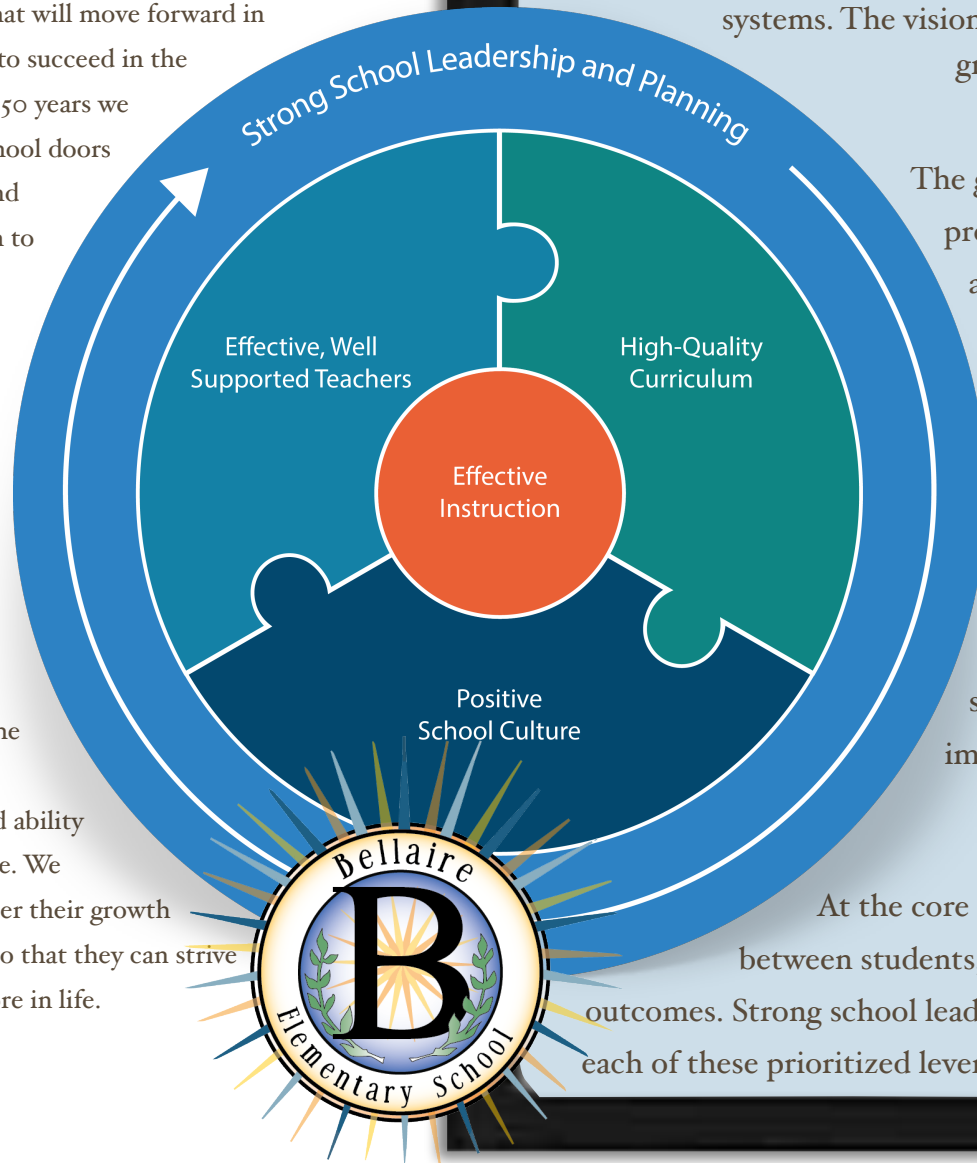

---

“After High School  
Comes  
College!”

# Bellaire

Bellaire Elementary School has been serving and working with this community to educate the each child that comes within our doors to become a stellar scholar that will move forward in their education to succeed in the future. For over 50 years we have had our school doors open to teach and educate children to become better citizens. Our young scholars will move from elementary school to onto middle school, from middle school to high school, and hopefully gain the idea, ambition, imagination, and ability to choose college. We endeavor to foster their growth and education, so that they can strive to do and be more in life.

## PURPOSE...

Texas Education Agency (TEA) works to improve outcomes for all public school students in our state by providing leadership, guidance, and support to school systems. The vision is that every student is an independent thinker who can graduate as an engaged and productive citizen.

The goal of Effective Schools Framework (ESF) is to provide a clear vision for what districts and schools across Texas do to ensure an excellent education for all of our students. The ESF provides the basis for school diagnostics and for aligning resources and support to the needs of the schools. This was developed in cooperation with school and district leaders and included a national review of research about what makes high-performing schools excellent. The ESF is part of TEA's five-year strategic plan and is the starting point for improving...

At the core of this initiative is effective instruction: interactions between students, teachers, and content to determine learning outcomes. Strong school leadership and careful planning encompass and ensure each of these prioritized levers.
