Where's My Child's Bus?

REAL-TIME LOCATION OF YOUR CHILD'S BUS IN THE PALM OF YOUR HAND

LITE

Killeen ISD provides the Edulog Parent Portal Lite smartphone app to help you receive information about your child's school bus ride. It allows you to see real-time information about the location of your child's school bus and to receive notifications when the bus is getting close.

FEATURES

Security: Bus location information is only available for those that have received a registration code from their school.

Where's My Bus? The screen that shows the bus location also shows the TIME that the last location was reported.

Messaging: The district can send messages via the app with transportation-related information. For instance, if a bus is down for maintenance and another bus is running in its place, the transportation department can notify parents following that bus.

Spanish Available: Once you log into the app, you can set your language.

HOW TO GET UP AND RUNNING

1 – Download the app and sign up with your email address
2 – Check your email and authenticate
3 – Enter the registration code from your school
4 – Locate your school bus and receive alerts

VIDEO INSTRUCTIONS

Please visit **www.killeenisd.org/bus_app** to see our helpful video on how to get connected to your child's bus and set your preferred notifications.
